# IPAF MEWPS for Managers

**Course Aims:**
To develop the delegate's awareness of current legislation, types and classifications of MEWPs. Delegates will be aware of correct machine selection, correct PPE selection, safe-use and operation of MEWPs, planning and maintenance.

**Who Should Attend?**
Managers or supervisors that use or have responsibilities for the use of powered access scissor lifts, self-propelled boom lifts, trailer mount booms and aerial work platforms.

**Duration:** 1 Day

**Agenda:**
- Legal requirements for management
- MEWPs categories
- Structural parts and equipment available
- ISO 18878 / IPAF operators course
- BS 8460 Approved Code of Practice
- Site surveys
- Risk assessment and method statements
- PPE

**Certification:**
Delegates successfully completing the course will be awarded an IPAF Certificate of Competency (valid for 5 years).
