

Capital Cleaning (CC)

Capital Cleaning

The Company Profile

Specialists' in high rise window cleaning

Company Overview

Capital Cleaning Middle East was established in 2011 with the aim of developing methods of working at heights and applying them to a variety of commercial, industrial and domestic projects in this region.

From its inception the company has produced high quality, high performance and on time services, customized specifically to meet customer's needs within a competitive pricing range and structure.

Capital Cleaning is now one of the leading rope access companies in Abu Dhabi and provides consulting services for existing and new designed structures on rope access and cradle solutions for difficult to reach areas.

Quality

Capital Cleaning is one of the few of companies throughout the Rope Access Industry that employees IRATA guidelines. Safety is paramount to us and we are currently undergoing ISO 9001: 2008 certification.

Capital Cleaning views this as a primary responsibility and the key to good business is adopting appropriate Quality standards

Vision

We at **Capital Cleaning** - understand the complexity of office cleaning today and rely on our past experience to carefully balance, function, optimization and productivity in the creation of a harmonious environment workspace for all of our clients.

Capital Cleaning continue to maintain practical focus on the Corporate Client segments of the market, to satisfy their needs, requirements and perceptions of commercial and industrial structures.

Capital Cleaning's most important objective is to maintain client satisfaction from the start of the projects life cycles to its completion.

Mission Statement

Capital Cleaning develops and maintains a highly skilled, innovative, motivated and harmonious team focused on producing solutions that exceed client expectations and result in sustainable long-term relationships.

Environmental Policy Statement

Capital Cleaning we are committed to leading the industry in minimizing the environmental impact of its activities. All cleaning chemicals are environmentally friendly. Our staff are trained to conserve water and do our part with leaving the smallest possible footprint on our environment.

Training, Health & Safety Policy Statement

Capital Cleaning abseiling technicians are trained and assessed with the IRATA training scheme (International Rope Access Trade Association) see link <http://www.irata.org/>

At **Capital Cleaning**, the health, safety and welfare of our employees is of paramount importance to our business. **Capital Cleaning** Health and Safety policy calls for a 100% safety record.

Objectives

We Window Clean, in those high, hard to reach places.

Capital Cleaning understands the complex interaction of people, place, process's and technology that must be integrated carefully into the balance to create and deliver a functional, productive and design regardless of the location of the place of business or the conditions.

Capital Cleaning's practical know-how and design expertise will be at your disposal. We ensure an efficient and seamless delivery of business solutions and services that will ensure your workplace achieves.

These outcomes we stand by with our service:

- Increase return on your property investment
- Consistently apply "Best Practices" to corporate standards and designs
- Staff optimization, efficiency and productivity
- Reduction in staff turnover
- Increase the quality of workplace health and safety
- Increased flexibility of the workspace
- Simplify and streamline business processes and systems
- Improve service quality

Capital Cleaning has developed a commercial cleaning company servicing Abu Dhabi and Dubai focusing on outstanding quality.

Capital Cleaning's primary focus is to satisfy the client at all times, which will result in longevity of work coming from a medium-size client base. Projects are obtained via references from our existing, satisfied client bases.

All our work is carried out in a professional manner with quality being the prime objective. Although cost is a driving force, it will not be the ultimate objective.
