

COMPANY PROFILE

OFFSHORE STRUCTURAL SURVEYS

REMOTLY PILOTED AIRCRAFT SERVICES

ADVANCED NDT SYSTEMS

ENVIRONMENTAL SERVICES

CONFINED SPACE RESCUE

INDUSTRIAL ROPE ACCESS SERVICES

Otaoilf Services Limited (OSL) is an indigenous industrial, marine & inspection company incorporated under the laws of Nigeria to provide specialist inspection services to the oil and gas industry. OSL provides a diverse range of highly technical solutions covering Advanced Non-Destructive Testing (NDT), Tank Cleaning, Rope Access, Technical Manpower and Environmental services. Otaoilf Services Ltd is in strategic alliance with Global Design Innovation Ltd (GDI) and Matrix-AI, both from Aberdeen, Scotland as technical partners.

Mission Statement

To continually provide quality services solution to major National and Multinational clients by matching our dynamic technology and engineering skills to meet and exceed our client's expectations.

Vision

Otaoilf Services Limited vision is to be the number one provider of Advanced Inspection Technologies providing specialist inspection services to local and multinational operators in Nigeria and West Africa.

Services

Otaoilf Services Limited predominantly provide the following services.

- a. OFFSHORE PLATFORM STRUCTURAL MAPPING
- b. REMOTELY PILOTED AIRCRAFT SYSTEMS (RPAS)
- c. ADVANCE NON-DESTRUCTIVE TESTING SERVICES (ANDT)
- d. ENVIRONMENTAL SERVICES (TANK CLEANING)
- e. CONFINED SPACE RESCUE
- f. INDUSTRIAL ROPE ACCESS SERVICES
- g. TECHNICAL MANPOWER SERVICES
- h. ASSET INTEGRITY SERVICES
- i. CRANE INSPECTION MAINTENANCE & CERTIFICATION
- j. TRAINING
- k. 3rd PARTY INSPECTION

Otaoilf Services Limited in Partnership with Major International Operators have come up with the technical expertise and project technology in various advanced fields of business ensuring cutting edge technology and massive savings to our clients. Otaoilf Services Limited are one of only a few NCAA / NSA certified DRONE operators in Nigeria.

The company has been set up and is being managed by highly experienced professionals with sector cognate experience to operate in accordance with internationally acceptable standards and practices in order to provide competitive and value-added services.

Our people are fundamental to the success of our organization and remain at the heart of our achievement.

OSL are continually committed to providing our clients with the highest standards of services and quality.

Health Safety Security Environmental

Otaoilf Services Limited management and staff recognizes the importance of the health and safety of persons and property directly involved in our operations and the preservation of the environment in which she works. To realize this policy, Otaoilf Services Limited have an EMS System in line with ISO 14001 – 2015.

Otaoilf Services Limited management and staff recognizes the importance of Quality of our services both internally and externally in our operations and in the continually developing markets in which she works. Otaoilf Services Limited have an QMS System in line with ISO 9001 – 2015.

Local Content

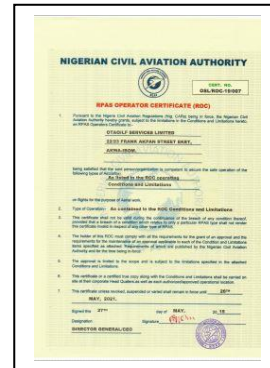

OTAOILF confirms that we comply with the NCDB directive that all international codes and standards used in the industry are to be harmonized to support utilization of locally manufactured products and to improve capacity utilization in local industries and training of Nigerian Nationals.

SERVICES:

(RPAS) Remotely Piloted Aircraft System

Recently, OSL has been awarded the Remotely Piloted Aircraft System (RPAS) Operators Certificate (ROC) to provide drone and inspection services in the following areas;

1. Security and Surveillance
2. Marine Inspection and Monitoring
3. NDT Inspections Services
4. Oil and Gas Facility Inspections and Monitoring
5. Critical Infrastructure Monitoring
6. Orthophoto
7. Mapping
8. Aerial photography and Video
9. Rotating equipment

Accordingly, we are bringing the combined technical capabilities of Otaoilf Services Ltd, Global Design Innovation Ltd and Matrix AI to support your operations.

We have the capability not only to gather data but to also carry out analysis of the data and report on the task. Therefore, we can manage the full inspection scope for the client and in most cases have all the data analysis and reporting completed before leaving the site/asset. Our dynamic approach when on site leaves very little room for down-time as we always aim to maximise our time on the site by have primary scopes and fall-back scopes built into our work-packs. We have completed these tasks for several companies in the North Sea including; Chrysaor, Taqa, Enercon, Dana Petroleum, EnQuest and Total.

Our UAV (drone) services for offshore and onshore operations include the following:

A. Access Services

- UAV (Drone)
- IRATA Rope Access

B. Non-Destructive Testing - In-Service and Fabrication

- Close and General visual inspection
- Plant Inspection
- Ultrasonic Inspection (UT)
- Dye penetrant inspection (DPI)
- Magnetic particle inspection (MPI)
- Eddy Current (ECI)
- Thermography
- Specialist NDT
 - Phased Array corrosion mapping
 - Phased Array weld inspection Incl. CRA material
 - Pulsed Eddy Current
 - ToFD (Time of Flight Diffraction)

C. UAV (Drone) Services

- Remote visual inspections
- Flare tip inspection visual and thermal utilizing 30x optical zoom and thermal camera in one visit
- FLIR Thermal imaging Inspections
- 3D Mapping and Photogrammetry
- LIDAR (light detection and ranging) aerial point cloud creation
- Internal inspection of tanks, legs and vessels using highly sophisticated drone technology with anti-collision software
- Structural inspections
- Pipeline and pipework inspections
- Derrick Inspection
- Underdeck structural and riser inspections
- Thermal imaging of generators, electrical equipment, pumps, turbines and exhaust
- Confined space inspection
- Line of Sight and Beyond Line of Sight Inspections

D. Blanket Scanning (Cloud)

- 3D Blanket scanning of Assets, Platforms, Plants, Rigs, FPSO's etc.
- Design and Engineering
- Fabrication verification and Construction

SERVICES:

(IRATA) Industrial Rope Access Services – Operator / Trainer OT/7076

OSL are and IRATA and DPR approved for industrial rope access services providing clients with services such as

- Structural Surveys
- Plant Inspection
- Asset Integrity
- Standby Rescue
- DROPS Survey
- Rig Inspection
- Hull Inspection
- Blasting & Painting
- Advanced NDT

SERVICES:

Advanced Non-Destructive Testing

OSL are DPR registered for providing both Convectional and Advanced Non – Destructive Testing services providing clients with services such as

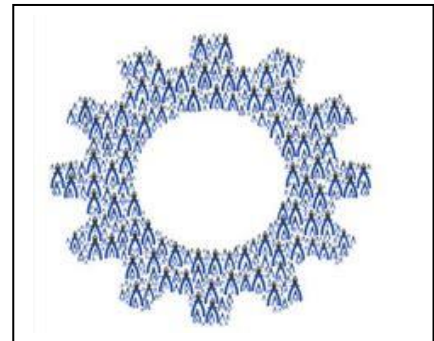

- Phased Array
- TOFD
- Pressure Vessel Scanning
- Digital Radiography
- Eddy Current
- Long Range Ultrasonic Testing
- Thermography

SERVICES:
Technical Manpower

OSL are DPR registered for providing clients with Technical Manpower services such as

- Structural Engineers
- Commissioning Engineers
- Project Managers
- Project Engineers
- QA/QC
- NDT Specialists
- Environmental Specialists
- Construction Managers
- Construction Superintendents
- Process Engineers
- Production Engineers
- Facility Engineers
- Geologists
- Marine Specialists
- Instrumentation Specialists
- Electrical Specialists

SERVICES:
Environmental

OSL are DPR registered for providing clients with Environmental services such as

- Tank Cleaning
- Oil Spill
- EIA

CERTIFICATION / ACCREDITATION
