

PASMA – Mobile Access Tower

Course Aims:

The course involves both classroom and practical sessions in the safe erection and use of mobile alloy and fibreglass access towers.

At the end of the course delegates will have an understanding of current relevant legislation and be able to dismantle, erect and inspect mobile access towers safely, as per the manufacturer's instructions.

Who Should Attend?

Anyone who has a need to dismantle, erect and inspect mobile access tower safely.

Duration 1 day

Agenda

- Introduction to mobile access towers
- Regulations and standards
- Components and hazards
- Tower assembly
- Stability and safe-use of towers
- Repositioning towers
- Tower inspection
