

CITB Site Management Safety Training Scheme (SMSTS)

Course Aim

To give an understanding of a delegate's responsibilities and accountability for site safety, health and welfare, current health and safety legislation. This industry-recognised course is ideal for companies who need to meet the ever-increasing demand for evidence of sound health and safety management on site. The course fee includes the construction skills publication Construction Site Safety – Health, Safety and Environmental Information Manual (GE700) as well as other course materials.

Who Should Attend?

Project managers, site managers and supervisors as well as proprietors of small to medium sized companies. Possession of this qualification is listed in the Approved Code of Practice for the Construction (Design and Management) (CDM) Regulations as a demonstration of competence in the role of site manager.

Duration 5 days

Agenda

- Site set-up
- CDM regulations
- Risk assessments
- Method statements
- Scaffolding
- Electricity
- Excavations
- Demolition
- Confined spaces
- Changes in accepted working practices.

Certification

Delegates successfully completing the course will be awarded a CITB constructions skills certificate
